## Safety First! Call 811 Before You Dig

BCSS contacts Alabama One Call and confirms all utility line locates are active before performing any construction work or digging on properties.

If you or a contractor digs on your property, be sure to call Alabama One Call at 811

to stay safe and prevent damage to utility lines. Our Service crews follow strict installation and repair procedures, with a Service Supervisor overseeing every installation (reenacted December 2012).

**Know what's below.  
Call before you dig.**

## NEW FOR YOU!

**Bathroom & Kitchen Décor Signs that politely remind family & guests of things to keep out of the drains.**  
Info on these signs, as well as complimentary grease containers and magnets are available at [www.baldwincountysewer.com/systemcare](http://www.baldwincountysewer.com/systemcare)

# Are you prepared for floods and storms?

We are deeply sorry if you have suffered any loss or damage to your property from recent flooding. During the aftermath, contact us if you've vacated your property and have questions about your account.

- Request a complimentary storm preparation flyer with tracking chart at 971-3022 •

Visit

[www.baldwincountysewer.com/stormpreparation](http://www.baldwincountysewer.com/stormpreparation)  
to follow detailed sewer preparation guidelines, plus weather and emergency-related links.

During flooding and/or a power outage, limit water usage. If your property could flood and you have a grinder pump, turn off pump switch in main breaker box or in pump's panel box. Don't forget to turn it back on after flooding subsides!

If you have a grinder pump, periodically check its alarm panel box outside. If you hear the alarm sound or see the light flashing for more than 15 minutes, contact BCSS.
